# Excellence at Your Fingertips

With 40 years of expertise in ornamental fencing, Oasis Fences takes pride in its legacy of manufacturing top-quality products. From inception, we've overseen the entire process—from design and fabrication to the final touches—ensuring unparalleled results at every step.

**WHERE  
EXCELLENCE  
MEETS  
DURABILITY**

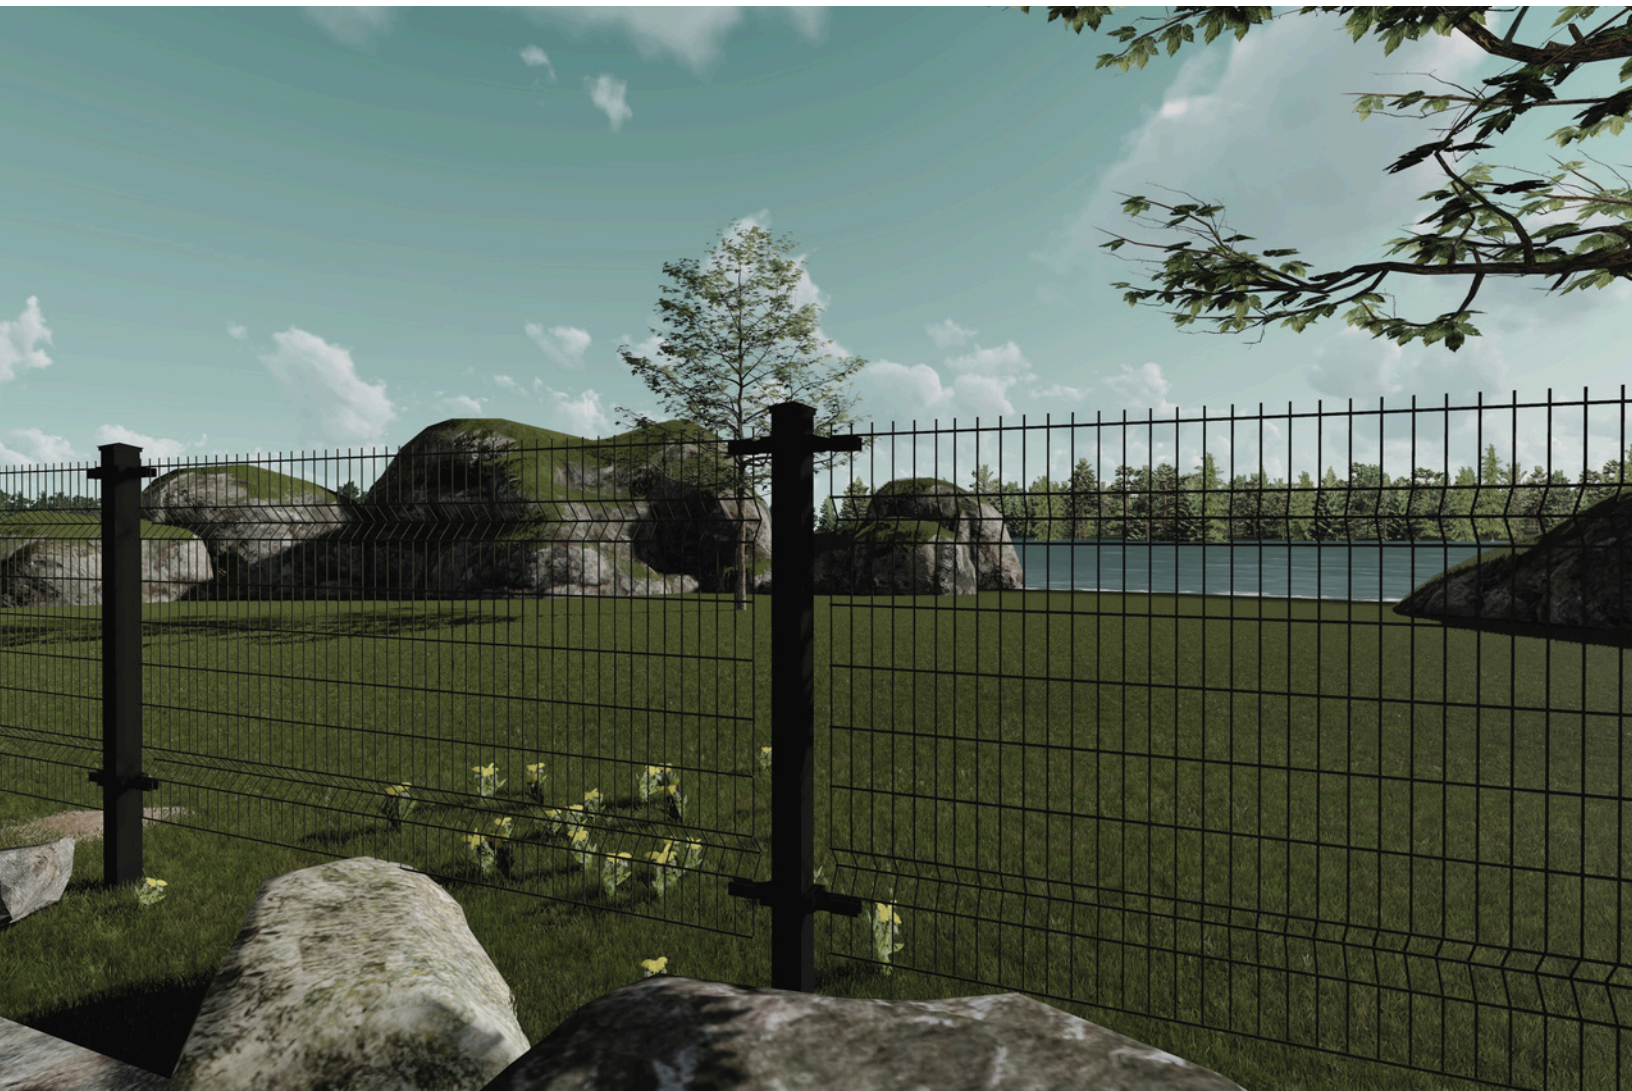

## Proven Expertise

Our manufacturing processes prioritize excellence, including galvanization to protect steel from rust, advanced assembly techniques for corrosion resistance, and a polyester powder coating for a lasting finish. Our reputation as a steel fence leader stems from our commitment to quality and ability to execute even the most intricate custom projects.

# Architectural Fencing

Choose urban elegance with our architectural fence. Crafted from pre-galvanized steel mesh panels with high-quality polyester coating, this fence ensures exceptional strength and durability. Its sleek, discreet design offers remarkable versatility, seamlessly integrating into various landscaping styles while providing optimal visibility. Valued by our commercial, industrial, and municipal clients for its bold aesthetics, it also ensures optimal security.

# The Horizon Series

The Horizon Series epitomizes our dedication to architecture and rigorous project demands. Designed to meet the highest standards of the commercial, industrial, and public sectors, this series achieves the perfect balance between style and robustness. Harmoniously blending with its environment, the Horizon Series exudes unparalleled durability and sophistication whether gracing modern urban cityscapes or rural settings. Its meticulously planned installation process aligns seamlessly with Oasis Fences hardware, guaranteeing effortless integration.

# The Panorama Series

The Panorama Series combines distinctive style and sophistication with a sleek and understated fence design. Suited for any landscape, this contemporary fence elevates both the aesthetics and security of any property without imposing visual clutter. Featuring reinforcing V-bends, it exudes an aura of prestige while effortlessly harmonizing with both traditional and modern architectural styles. Intrusion-resistant, its installation is simple and cost-effective, facilitated by a versatile post and bracket system.

## Section Models

### DETAILS

#### Dimensions

Standard Heights: 4', 6', 8' (1219, 1828, 2438 mm)

Standard Width: 8' (2438 mm)

#### Mesh

Galvanized steel

C-C opening: 2" (51 mm) x 6" (152 mm)

Vertical and horizontal rods: 6 gauge (4.88 mm)

#### Certifications

ASTM F2919 and ASTM A641 standards

Weld-shear strength:

- Uncertified model: 800 lbs
- Certified model: 1317 lbs

#### Rails

Galvalume™ steel

14 gauge (2.0 mm)

1" x 1" x 96"

1" x 1" x 96" perforated

*\* Available in option with the Horizon Series*

#### Poteaux

Galvalume™ steel

2" x 2" x 72", 16 gauge

3" x 3" x 72", 11 gauge

#### Hardware

Universal and conversion brackets compatible with Oasis Series 5000, 8000, and 9000

*Optional anti-theft bolt for enhanced security*

#### Coating

Zinc rich primer\*

Polyester powder

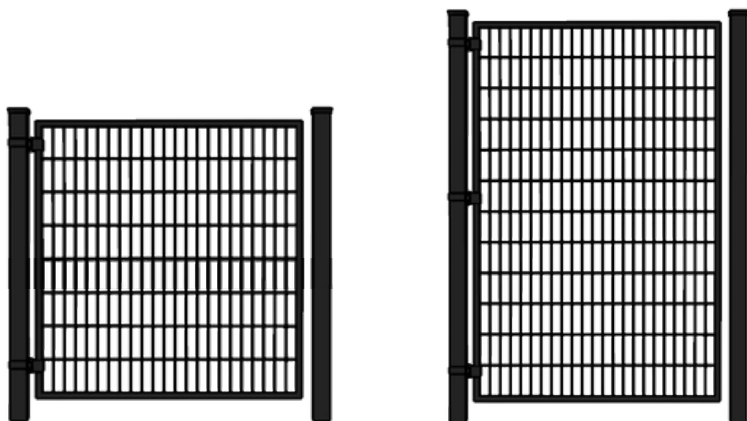

*\*Optional feature for optimal corrosion resistance*

## Gate Models

### Single Gates

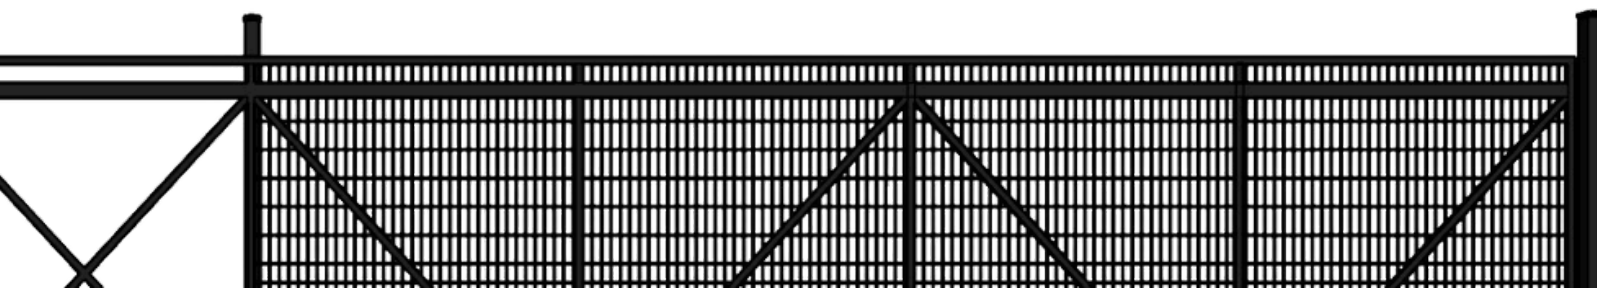

### Double Gates

For precise dimensions, it is essential to refer to product data sheets.  
Product data sheet information takes precedence over 3D models.

**Sliding gate systems are also available in custom designs.**

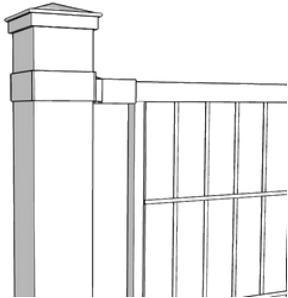

A modern building with a black metal fence in the foreground and a tree on the right. The building has a grid-like facade and large windows. The fence is made of black metal bars. A tree with green leaves is on the right side of the image. The sky is blue with some clouds. The sun is shining from the top right corner, creating a lens flare effect. The overall scene is bright and clear.
